

COURSE DEFINITION
Study and practice of the Protocol on Cervical Fasciae

Year: 3
code : A3 - 15

Head of department :
L. Giola D.O.
Teacher(s) :
JC.Filippini D.O.

ECTS : 1
Hours credit: 10
Distribution
number CM :
number TP : 10
number TD :

Type :
EP
Evaluation:
SEMESTER
Language : French
Documentation: YES

Courses objectives :

Acquire expertise in the fascial dynamics of the neck. Identify the causes of loss of myofascial elasticity, and the indications and contraindications of myofascial treatment. Knowledge and practice of the Protocol on each organ fascia.

Bibliography :

Paoletti (les fascia)

Content :

For each cervical organ fascia (oesophagus, thyroid), we will focus on:

- Fascial dynamics
- The causes of loss of myofascial elasticity
- Indications and contraindications
- The practical protocol includes:
 - * Static and dynamic visual examination
 - * Localisation, palpation
 - * Percussion
 - * Palpatory exclusion tests
 - * Myofascial elasticity tests
 - * Short, medium and long-lever myofascial techniques
