Welcome,

Your college is above all a living space and it is up to you to preserve it.

Osteopathy conveys fundamental human values that you will express, not only in your professional training but in your daily activities and in your conduct with others. Each student will receive a copy of this booklet. Students are required to acknowledge the sections on policies and examinations in writing at the beginning of the school year.

At the Osteopathic College of Provence you will not only study but prepare a lifetime career. It is for this reason then, that I insist on your commitment to the values you will receive in training, but also to those of the profession.

We wish you an inspiring and productive year of training. Do not hesitate to call us for any inquiry.

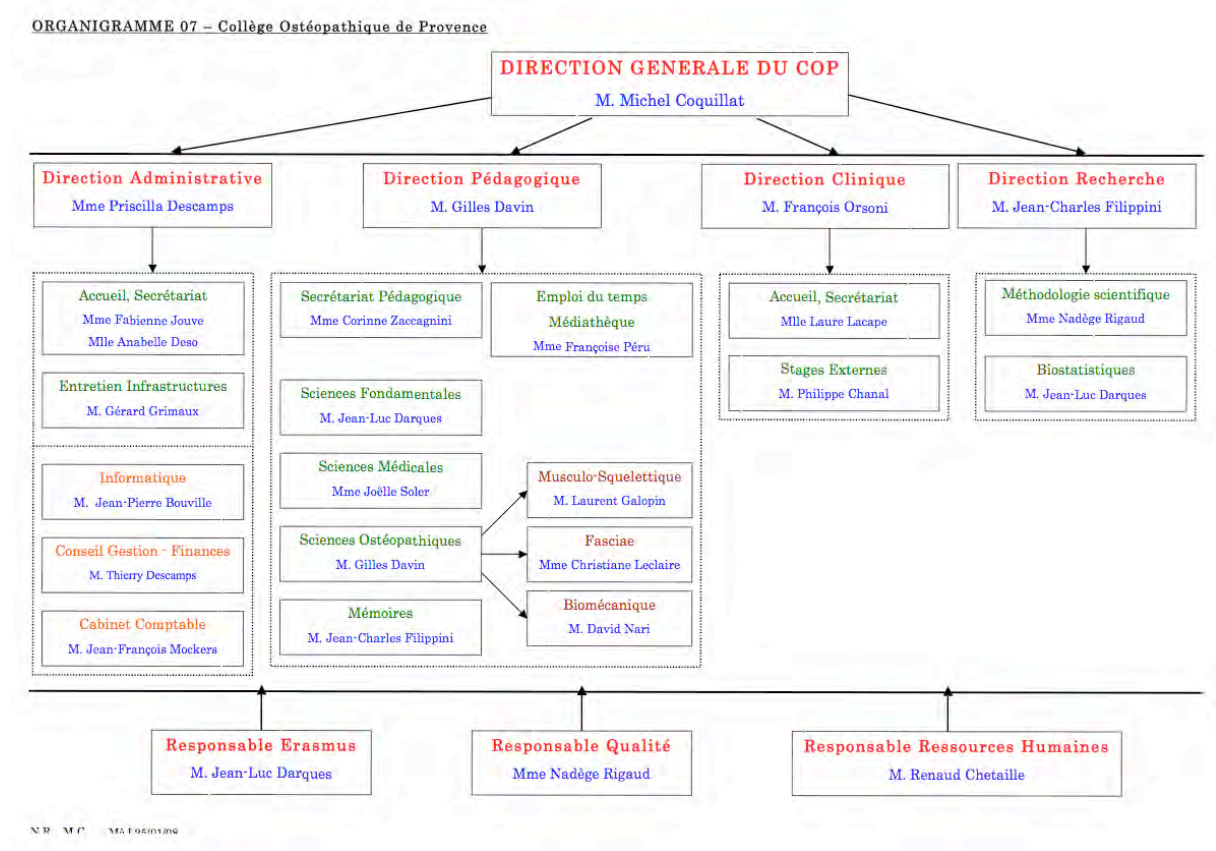

Gilles Davin  
Director of Studies

# FACULTY AND STAFF OF THE OSTEOPATHIC COLLEGE OF PROVENCE

Organizational Chart 07 – Osteopathic College of Provence

Managing Director of the OCP: Michel Coquillat

Director of Administration: Priscilla Descamps

Reception Secretary: F. Jouve/A. Deso

Infrastructure Maintenance: G. Grimaux

Information systems: JP Bouville

Management and Financial Consultant: Th. Descamps

Accounting office: JL Mockers : Theses: JC Filippini

Academic Director: Gilles Davin

Academic Secretary: C. Zaccagnini

Fundamental Sciences: JL Darques

Scheduling: Media Library: F. Péru

Medical Sciences: J. Soler

Osteopathic Sciences: G. Davin

Musculo-Skeletal: L. Galopin

Fasciae : Ch. Leclair

Biomechanics: D. Nari

Theses: Jean-Charles Filippini

Clinical Director : François Orsini  
Reception Secretary: L. Lacape  
Internships: Ph. Chanal

Director of Research : Jean-Charles Filippini  
Methodology: N. Rigaud  
Biostatistics: Jean-Louis Darques

Erasmus Director: JL Darques  
Quality Control Director : N. Rigaud  
Director of Human Resources: R. Chetaille

## **Faculty:**

Bassier	Jacques	Medical Doctor, Nutritionist
Benoiel	Michel	Osteopath D.O
Blanc	J�erome	Osteopath D.O
Brice	Julie	Osteopath D.O
Bricot	Nicolas	Osteopath D.O

# EXAMINATIONS

The chart below summarizes the OCP evaluation system.

Semester Mid term exams: validation of the semester's 30 ECTS credits. Exams include written tests and practical tests.

- 9 Training Units (= *Unités de Formation* or UF) required to receive a French diploma in Osteopathy (UF 1,2,3,4,5,6 A, B, and C)
- Final exams at the end of the 6<sup>th</sup> year required for the **Certificate of Osteopathic Qualification in Clinical Medicine, Education and Research.**
- Final exams or continuous assessment

	1 <sup>st</sup> Year	2 <sup>nd</sup> Year	3 <sup>rd</sup> Year	4 <sup>th</sup> Year	5 <sup>th</sup> Year	6 <sup>th</sup> Year

<b>2</b>	Semester (Midterm) Exam	Semester (Midterm) Exam	Semester (Midterm) Exam	Semester (Midterm) Exam	Semester (Midterm) Exam	Clinical Exam
	Theoretical Paper	Theoretical paper	Theoretical paper	UF B	UF: C ,1, 2	UF D
	Osteopathic practice	Osteopathic practice	Osteopathic practice	UF 4 and UF 5		Thesis
			UF A, 3, 6			
			UF 3, 6, A Clinical Access			

- UF = Unité de formation / training units

## 1) Examination requirements :

- All administrative requirements must be completed and fees paid prior to registering for exams.
- Attendance of both theoretical and practical courses and continuous assessment tests are mandatory.

- Training Units (UF) are governed by French regulation (Law No. 2002-303 of March 4, 2002, 2007-435 Decree and Order of March 25, 2007 article 4, chapter 1,2): Tests are graded on a scale of 20 for UFs 1,2,3,4,5,6 and A ; minimum score of 10 out of 20. UF B is a practical test validated by a minimum score of 10 out of 20. Unit C is obtained after validation of internships (clinical test) and a minimum score of 10 out of 20.

## 2) Examination Process:

- A comprehensive calendar of examinations (theoretical and practical) is available on the OCP website in the section reserved for students (school aid).  
Each student will receive an access code to the site at the beginning of the year.
- Theoretical examinations are multiple choice exams. In an effort to respect anonymity, each student has a “personal barcode”. Sheets with “barcode labels” are given to each student at the beginning of the year. Students who are not in possession of their barcode upon entering the examination room will not be allowed to sit for the exam.
- Semester examinations are subject to the Erasmus validation rules, with a minimum average required of 10/20 for the 30 ECTS credits obtained each semester and an eliminatory score of 6/20. The make-up examination session is held in September.
- The additional sessions of 9 UF's, are bound by French regulations (Law No. 2002-303 of March 4, 2002, 2007-435 Decree and Order of March 25, 2007 article 4, chapter 3)
- **The secretary's office will give no information on exam schedules and results by phone.**

## 3) Examination terms and conditions: Student's rights and duties

### Students must:

- Justify their identity.
- Sign the official exam attendance sheet when entering and exiting the examination room
- Imperatively arrive at the examination centre 15 minutes before the beginning of the test and be accompanied by their patient for practical exams.
- Write their papers themselves and by themselves.
- Use only equipment available to them and expressly authorized by the examination terms and conditions.
- Only use test sheets available to them (test and draft sheets). **Test sheets filled out incorrectly will be refused.**
- Hand in their test sheets at the required time at the end of the session and make sure they are properly sealed. (For written non-multiple-choice examinations)
- Follow an appropriate dress code when at the examination centre. For practical UF examinations, a white blouse is required.

### Students must not:

- Enter the exam room with a bag that may contain documents.
- Use any method of communication with the outside world.
- Leave the examination room without going through the identity check. A minimum period of 15 minutes in the room is mandatory even if handing in a blank exam sheet.
- Stay or go back into the exam room once the exam sheet has been handed in.
- Go out of the exam room, even to use the toilet.

- Be in possession of a cell phone.

#### **Tardiness:**

- Tardy candidates will not be accommodated after the exam questions are disclosed unless :
- The delay is due to a *force majeure* and can be justified.
- The delay does not exceed one quarter of the duration of the test.
- No extra time will be allocated to tardy candidates.

#### **4) Exam Questions:**

##### **Teachers:**

Are responsible for the choice of questions depending on the program studied. For practical exams, they are responsible for organizing all examination procedures. The head teacher in a subject may appoint a replacement to select the questions, or evaluate students during practical exams.

##### **Panel of examiners:**

- For semester examinations, practical aspects of the examination process are the responsibility of the department head and the teacher. Panel members are recommended by the director of studies.
- For practical osteopathic UFs (UF B and C) the panel is mixed (one teacher from our school and one teacher from an outside approved establishment). Panel members are recommended by the director of studies.
- The panel of examiners meet at the end of the tests in the presence of the director of studies. Only litigious cases are discussed. Re-examination may be allowed based on students' report cards (attendance, behaviour and continuous assessment).

#### **5) Physical organization:**

##### **The School Administration:**

- Guarantees the availability and identification of examination rooms.
- Prepares the exam rooms (prepare for an appropriate seating organization).
- Provides a clock in each room.
- Provides students with (depending on the organization):
  - The appropriate number of clearly legible question sheets.
  - Anonymous exam sheets.
  - Easily identified draft sheets (coloured).
- Keeps a record of grades after evaluation and possible deliberation as well as the exam sheets.
- Uses all possible means to guarantee the exam sheets' anonymity.

##### **Supervision of the examination rooms:**

Written (theoretical) exams are supervised by a group of people appointed by the director of studies, with one head supervisor assigned to each room. They must be present in the

exam room before the beginning of the test and must oversee the material preparation of the room and verify the candidates' identities.

The supervisor must specify the actual time of the beginning and end of the exam.

At the end of the exam, supervisors must fill out the exam report which includes:

- The names of those students who were present or absent (they may add the names of students who were present but not pre-registered) as well as any observations or report of incidents that may have occurred during the examination (particularly cases of cheating).
- Hand in the exam sheets to the administrative office who will distribute them to the teachers or director of studies for evaluation.
- Hand in the exam report to the administrative office

## **6) Cheating:**

The Managing Director and the Academic Director have disciplinary authority. They refer cases to the Academic Board which consists of the Administrative Director, the Clinic Director and the Department Heads.

The students accused of cheating or attempted cheating are referred to the Disciplinary Committee which decides on the appropriate sanction.

Supervisors are entitled to exercise strict control during exam sessions. They are also mandated to make all necessary comments when they witness attempted communications between students.

In cases of red-handed cheating or attempted cheating, the room supervisor will take all measures to stop the cheating without interrupting the exam session and will report the cheating or attempted cheating in the "comments" section of the exam report, and specify the name(s) of the guilty student(s) and the nature of the cheating.

Any cheating or attempted cheating will result in the disqualification of the candidate's examination paper.

## **7) Grades:**

Grades are displayed on the establishment's bulletin board provided for this purpose and on the College's website. No grades will be given by telephone.

## **8) Two annual sessions:**

The first sessions are semester exams (February and June), a second session, or make-up session is held in early September.

## **9) Repeating:**

Admission to the next year is based on the students' grades, class attendance, and general behaviour.

The number of students repeating any school year must be limited. Should the number of students repeating be too high, the limited space availability will be reserved for those students with the best records, on the Education Board 's recommendation..

Exam attendance in February, June (semester exams) and September is MANDATORY. Unjustified absence from the examinations will result in the students' expulsion from school.

## **10) The Education Board:**

It includes the entire faculty, the Clinical Director, the Academic Director and the Director of Administration, depending on availability.

A minimum of 4 people is required for each meeting.

The Board meets following the 2<sup>nd</sup> session in September to deliberate on a case-by-case basis. The Board's decision is final and irrevocable

## **SCHOOL POLICIES:**

### **Attendance:**

Regular class attendance is mandatory (theory, practice, clinic and hospital internships). A medical certificate is required to justify absences over 48 hours and should be brought to the college reception upon the student's return to school. Attendance is checked daily through a computerized roll-calling system. The Director of Studies may also perform spot-checks.

In the event of fraud (student with a computerized attendance record but physically absent) students will be referred to the Disciplinary Committee and may be expelled from school.

Students with a record of 8 absences per trimester is referred to the Director of Studies. Sanctions may include repeating the school year.

Classes are organized in series of 2 hours with 15 minute mid-morning and mid-afternoon breaks. They are scheduled from 8:30 to 10:25, 10:40 to 12:30, 14:00 to 15:55 and 16:10 to 18:00.

Absences on the day preceding exams will be penalized and may result in the student being barred from sitting the exam.

### **Presentation:**

Students must dress appropriately when attending classes. Cell phones are strictly prohibited in classrooms. Students who leave the room to use a phone may be expelled by their teacher.

### **Delegates:**

At the beginning of each year, each class appoints a delegate to represent them at various meetings.

### **Meetings:**

Two meetings are scheduled each academic year. They are held by consultation committees made up of class delegates, the Academic Director and Department Heads. Their objective is to discuss specific issues in each subject. The first meeting of the year sets the curriculum deadlines and includes the Director of Studies and the class delegates.

Every year, in May, parents are invited to attend an information meeting, to review and evaluate the school year and be better acquainted with the teachers.

### **Discipline:**

Students disrespectful of the school policies may be referred to the Disciplinary Committee. Any violent act or behaviour will result in immediate and permanent expulsion from school.

### **Students' contact information:**

Each student is required to inform the administration of any change of address and/or telephone number.

### **Equipment and premises:**

The educational equipment (spines, skull ....) must be used with very special care.

Students must ensure the cleanliness of the premises. Every week two students are appointed "Students of the Week" in each class. Each student must fill that position at least once during the school year.

Drinking and eating in the classrooms are strictly forbidden. The foyer is designed for this purpose.

The *students of the week* are responsible for managing their fellow students' behaviour. They must check the availability and reliability of the equipment, make sure that students do not bring food or drinks into the classrooms and that the lights are switched off and the windows closed at the end of class.

### **The foyer:**

It is a living space for the students, between classes and during meals.

### **Hygiene:**

To ensure better work conditions, we recommend that you keep a towel handy during practical classes.

### **Outside clinics:**

Many facilities (sports and non-profit organisations...) call on osteopathic services.

As a partner, the receiving organisation must sign an internship agreement with the OCP in order to get liability insurance.

## **INTERNSHIP AND CLINIC POLICIES**

Two types of internships are available:

- Internships in the OCP health centres and / or in hospitals, clinics and free clinics.
- Internships in sports organisations

Internship reports:

- a) 2<sup>nd</sup> year internship: introduction to the sick and hospital environment: A report is due within 15 days following the completion of the internship.
- b) For all internships, students must keep separate “roadmaps”
- c) Internship Agreements

There is no need to sign “internship agreements with”: CH Conception, CH Montperrin and Clinique La Casamance. Internship “agreements” must be signed with The Gaby Gymnasium, the Red Cross, the France Judo Centre and all other outside internships.  
(CH = Centre Hospitalier)

### **Clinical and internship policies:**

Interns must:

- Follow an appropriate dress code. Imperatively wash their hands before and after each consultation. A disinfectant spray is at the students’ disposal in each box.
- Tie up their hair when it is long.
- Not wear piercings.
- Wear a white blouse and a badge (provided at the beginning of the year).
- Be perfectly punctual.
- Ensure perfect hygiene of the treatment rooms and make sure that the rooms are in orderly condition after each consultation.
- Ensure that common spaces are also well maintained and kept clean.
- Abide by the profession’s ethics. They are similar to other health professions (obligation to provide services, reserve, and professional secrecy).
- Not give his personal telephone number or go to the patient's home without prior authorization from the Head of Clinical Education..

Tutors direct and supervise the training process and the quality of the care, they supervise the editing of the patients’ osteopathic records and treatment sheets for each session. Those must be dated and include the names of the student and the tutor. The file remains the property of the OCP Health Care Centre.

The students’ acquired knowledge is regularly evaluated. These evaluations are entered in the students’ university internship record.

Tutors are free to reorganize the clinic internship schedules, discipline and teaching. Problems will be brought to the Clinical Director’s attention. Sanctions are the same as those in force at the school, under the responsibility of the Disciplinary Committee.

Disciplinary measures:

Absence at the clinic:

- All absences must be excused in writing and handed in the clinic secretary's office. Absences must be made up either during school holidays or on Saturday mornings, depending on the clinic secretary's proposal.
- Students absent for more than 2 half days without justification, will be given a first warning and will be obligated to make up for the missed days.
- In case of repeated absences, students are given a second warning and can be referred to the Disciplinary Committee. Sanctions are:
  - 2<sup>nd</sup> warning without further action and reprimanding
  - Expulsion from the clinic and/or internship sessions for a period ranging from one day to one month
  - Prohibition from sitting exams at the end of the year due to non-validated internships.
- For internships outside the OCP, a letter of apology addressed to the establishments and their directors will be required. The nature of the sanction will be communicated to the place of internship.
